RECOMMENDATIONS

"Sheena is smart, diligent and pragmatic about getting things done. She manages multiple client organizations in a grant program diplomatically and effectively. Her skills at organizing events range from registration management to graphics and print production."

Terry Dyke, Senior Research Analyst, City of Austin

"As chair of the City of Austin Community Technology and Telecommunications Commission, I've worked on several projects with Sheena. The most significant of these projects is the city's Grant for Technology Opportunities (GTOPs) program. GTOPs has been a very effective and well supported program, both by my commission and the city council. Everybody involved recognizes Sheena's paramount contributions to its success. From organization through publicity through contract administration, her work has been nothing short of stellar. Two of many things that have helped achieve this success have been good organization (which has allowed a complex program to move forward--always on schedule) and good communications (with commissioners, other city departments, and various non-profits). In addition to those project management skills, her creativity and design abilities have also served the program well, and have helped build a strong "brand image" for GTOPs."

Chip Rosenthal, Chair, City of Austin Community Technology and Telecommunications Commission

"I have had the privilege of working with Sheena through the Grant for Technology Opportunities (GTOPs) program for three years. Sheena is highly organized and professional with the ability to be supportive and tough when needed. As the Program Coordinator for GTOPs, Sheena has always provided me with the information I have needed to manage the grant effectively. Sheena's passion and dedication shows in the respect the GTOPs program has throughout non-profits across Austin. As we all clamor for this funding year after year it is because of Sheena that we are able to navigate the GTOPs application and review process and then hopefully the contract process."

Stacy Bouwman, CTTC Managing Director, Skillpoint Alliance

"Working with Sheena Harden was a delight. She had a strong vision on how to fulfill my needs, but she was also very flexible and open to my ideas. Sheena was especially talented at taking me through the steps of website and logo design for the first time she made it very easy for someone who had no idea what they really wanted or needed! She brought together all the design elements for my business flawlessly and I couldn't be more pleased with the results of her work!"

Rita K. Sanders, Editor

"Sheena designed my logo for Photo Java Photography. After a brief consultation she put together a proof. I provided a little feedback, and she had the logo perfect that day. I intend to use Sheena for all of my custom graphics needs."

Jeff Cicolani, Owner/Photographer at Photo Java Photography
